Insurances

Insurance premiums are one of the big business expenses. Most insurances are offered much cheaper collectively. Members of the SGfB also benefit from this.

Professional liability insurance

Protects you in the event of property damage, personal injury or financial loss to third parties caused by a mishap on your part or by the general operation of your practice. As soon as you start a commercial activity, this insurance is an absolute must. The SGfB association solution also includes visitor accident insurance. The insurance also covers so-called auxiliary persons such as employees in the reception, office, cleaning etc.

However, if you employ counsellors in an employment relationship, you need insurance cover outside the association solution.

→ Further information (application form, general conditions)

Daily benefits insurance

Daily allowance insurance - also known as loss of earnings insurance - bridges a loss of earnings in the event of illness and accident until other insurances (such as IV and pension fund) come into play. The benefit period is 730 days minus the selected waiting period. You receive a premium guarantee for the first 3 years. After that

The premium is recalculated on the basis of the premiums paid and the benefits received.
